Design is thinking made visible...”

- Saul Bass
Create your own miracles, don’t just wait for miracles to happen. Infinite possibilities exist by keeping focus on what you really want.

- Steven Redhead
FOREWORD

Welcome to our small world with big realities. Welcome to Godrej Locking Solutions and Systems!

A legacy that is 120 years old, Godrej has never needed an introduction. However, we are perpetually eager to elucidate on our constant evolution. Godrej is associated with innovation, high quality and superior, trendsetting design in India and around the world.

Times they are a’ changing - now more than ever before. And as always, we are keeping up. Gone are the days when a door handle was sought out as a mere functionality. Today, it has to be pleasing to the eye, fit in with the décor and stand the wear and tear that years of constant usage will bring. Thus, we’ve brought about innovations that give our users an amalgamation of the above qualities.

Here, we present handpicked ranges of door handles that have transcended geographies in finish and structure to bring to them the right blend of ergonomics as well as style. We understand the demanding role of a door handle and the agony their dysfunction may bring our customer; thus, our products are first, PVD- finished on cover plates—a first for a manufacturer in India; and second, they come with more than a decade’s warranty on the finish, the mechanism and a tried and tested guarantee of more than 500,000 life cycles for the handle design. What's more, we believe in going the extra mile and test our claim of durability by spraying the handles over 1,000 hours with salt spray.

Our customers dream and we deliver. So, be it at home or at office, the result of marrying technology with design and aesthetics will sit tight on their doors for years and never fail to look glamorous. Thus, these have truly earned a proud pause by our users at their doorstep.

Shyam Motwani
Executive Vice President and Business Head
Godrej Locking Solutions and Systems
Godrej Locking Solutions and Systems is part of the Godrej Group, one of India's leading organisations, with the patronage of 400 million users, for the last 120 years. This multi-location and multi-business corporate house has etched out a global footprint and is the choice of customers, worldwide.

Godrej was the vision of a man with big dreams - Ardeshir Godrej - who started a small company manufacturing locks in 1897. Today, this company has grown to become a household name across India, touching lives in every corner of the country. It has expanded to become a 3.5 Billion Euros conglomerate with well-established brands in diverse industries. All thanks to the company’s consistent vision of satisfying end users’ needs of security, safety and convenience in India.

From locks, household appliances, furniture and food to real estate, hi-tech engineering, security and personal care, Godrej’s relentless pursuit of excellence has enriched lives across the globe. So much so, that in the year 2014, Godrej Locking Solutions & Systems was awarded the CII-EXIM Bank Business Excellence Award, based on the European Foundation for Quality Management (EFQM) Model for Business Excellence.

Staying true to its core values of fairness, transparency and ethical dealing, the group has built a strong network of over 50 company-owned retail stores, more than 2,200 wholesale dealers and over 18,000 retail outlets. Moreover, Godrej Locking Solutions and Systems is a role model organization in India as a responsible corporate citizen.

Godrej Locking Solutions and Systems follows the same tradition of excellence, and is well-known for its constant innovation blended with cutting edge technology. We offer a comprehensive range of choices in design and strengths of security, to anticipate every need for safety faced by contemporary homes and businesses.
OUR CAPABILITIES

- **Manufacturing**
  We have over 2, 00,000 square feet of manufacturing space in 5 locations across India. Our pillars to achieve excellence in manufacturing encompass:
  - Working with major manufacturing technologies
  - State of the art equipments and machineries
  - Intensive product testing
  - Certified quality practices

- **Design**
  We have a team of industrial designers and engineers who are dedicated to creating and developing latest designs. We house a Centre of Industrial Design where designers are constantly working on innovative products to cater to the needs of our customers. Our products have consistently won The India Design Mark (the highest reward for product design excellence in India) for the years 2013 & 2014.

- **Customized solutions**
  We provide customized solutions best suited for our consumers’ needs which include integrating Master Key – Common Key, Customized Cover Plates, Levers, Rosette Handles, Rim Locks, Mortise Locks, Furniture and Safe locks. We have successfully catered to industry verticals like Real Estate, Petroleum, Logistics, Telecom, Hospitality, Airports, Banks, Education, Power and Postal Services in India and overseas market. Our Research & Engineering team works seamlessly with the Design team to provide technically integrated and advanced products for the clients.

- **Quality Systems and Certifications**
  - Integrated Management System for Quality, Environment and Health safety from TUV.
  - Products are tested to EN, UL & CE standards for conformity.
Common Key System

It is a set of identical locks operable by the same key.

Examples: Toilets, Ducts, Service rooms

Master Key System

What is Master Key System?

A Master Key is a key which can operate all the distinct locks in a predefined set. Each of these locks are also operable with their individual (change) keys.

What are the benefits?

- Robust security without the confusion of multiple keys
- Easy to define and map access of personnel. Thus, security system within the work group can be simplified and organised.
- All types of locking points which employ different systems (mortise cylinders, cylindrical locks, padlocks on the same technology platform) for various requirements (main entrance, internal doors, shutters) can be locked with just one key.

Master Key Arrangement

- The system consists of locks which are fitted on various application areas (D1, D2 ...)
- Each key is operated by an individually assigned key (K1, K2 ...) previously referred to as change key.
- The Master Key supersedes all these change keys and can be used to open all these locks in the system.

Examples: Floor wise Master Key System
Grand Master Key Arrangement

- It is a group of small Master Key systems operable by one Grand Master Key. The Grand Master Key operates all the locks in the entire system. Each lock is operated individually by a separate key.

Examples:
- Floor wise Master Key & Grand Master Key for the entire building (even across buildings)

---

Great Grand Master Key Arrangement

- Great Grand Master Key is a group of some Grand Master Key systems operable by one Great Grand Master Key. This key operates all the locks in the entire system.

Examples:
- Floorwise Master Key & Grand Master Key for the building & GGMK for the entire project.
Standards & Approvals

We have the certificates for the following standards & accreditations:
- TUV
- Products are tested to certificate of conformity:
  1) DIN EN 12209 : 2004-03
     Europrofile Mortise Lock 240mm
     (Backset 50/55/60/65/70 mm)
     Classification: 3 H 7 0 0 E 6 P C 1 0
  2) DIN EN 12320 : 2001-05
     3KS d/ENdr Padlock
     Classification: X X X X X 2 4
     Door Closer C680
     Classification: 3 8 4 2 1 1 4
  4) UL 228: Heavy Duty Door Closer
     Commendation Certificate for
     Significant Achievement on the
     journey towards Business Excellence
     awarded by CII Exim Bank Business
     Excellence Award jury

Handling of doors

Hinged doors can open in one of four ways and this determines whether the door is left or right-handed. Double doors with plain meeting stiles are also handed in this manner. Likewise, double rebated doors can open in one of four ways and this will determine whether the door is left or right-handed.

Single Doors

![Single Doors Diagram]

Double Rebated

![Double Rebated Diagram]
Security Strengths

Godrej provides a total locking solution, offering locks at various security strengths to ensure optimum safety.

- Security Strength 1 - Basic security
- Security Strength 2 - Ultra technology
- Security Strength 3 - EXS technology
- Security Strength 4 - EVVA 3KS technology
- Security Strength 5 - i - Secure

Godrej Security Strength 1 locks come with the conventional mechanical locking system through basic security systems which have levers, wafers, tumblers and single-row pin-cylinder technologies.

Godrej Security Strength 2 locks have highly precise computerised dimple keys with Advanced multi-row pin-cylinder technology. In this the maximum number of combinations (key differs) that can be provided is up to 100 million i.e. they can only be opened by its own key and to create a duplicate key, one requires the original key.

Godrej Security Strength 3 locks come with Advanced, Angular multi-row pin-cylinder technology. The maximum number of combinations (key differs) that can be provided is up to 2 billion and a highly complex system of master key solutions is possible.

The highest level of security, “Godrej EVVA”, in mechanical locks comes with a revolutionary 3 Curve system with floating pin, sidebars and locking bar. This conforms to European standard EN 1303. Combinations up to 30 trillion are available ensuring generations of non-repeating keys.

Unlike the conventional mechanical locks, Godrej SALTO IC card and i-Secure electronic technology are based on virtual networks which function through access control systems and has combination up to 200 trillion.
